**Cooperative Libraries
Automated Network**

*Gathering and sharing
information...
past, present and future*

**SERVING NEVADA
SINCE 1981**

As a group, CLAN takes advantage of sharing resources and revenues, making it economically feasible to do more together than any one library could ever afford to do on its own. The true benefactors of this cooperative effort are the citizens of Nevada. CLAN provides access to **all** the resources of **all** the members of CLAN through shared informational databases, interlibrary loan, on-line catalogs, and other web-based services. Even in the smallest, most remote rural libraries, patrons have access to the shared resources of CLAN.
